

SPECIAL WORKSHOPS

FAR FOR GALACTIC TRADER

with TED PHILLIPS, JR. of PAS ASTRO-SOFT, INC.

and RAYMOND A. MERRIMAN of MMA

FEBRUARY 8 & 9, 2003 (Saturday & Sunday) Orlando, Florida

Two great programs combine to give traders the cutting edge in Astro-market timing tools. This combination may be the most powerful market-timing tool available to traders. Jeanne Long's **GALACTIC TRADER™** software with Raymond Merriman's **Financial Astrological Research (FAR)** program work together to give you a first-class charting system.

Data that used to take months to gather is now available in an easy to use combination which allows one to design and conduct quantitative analysis studies on the relationship between market prices and geocosmic signatures.

This seminar is designed to teach one how to use all the features of the **FAR for the GALACTIC TRADER** software program. Raymond A. Merriman, author of the FAR part of the program, will explain each of the features of FAR. And Ted Phillips, Jr. will explain all the features of the Galactic Trader. Both speakers will emphasize trading features that make each part of the program valuable to traders.

The **FAR for GALACTIC TRADER** also operates with New Market Wizard Robert Krausz's popular **FIBONACCI TRADER™** program. All software will be available including the new Version 4 upgrade to the Galactic Trader and the FAR upgrade to existing programs (as well as **GALACTIC STOCK TRADER™** and Fibonacci Trader™).
